

2025 IEEE International Conference on Acoustics, Speech, and Signal Processing (ICASSP 2025)

April 06 – 11, 2025

Hyderabad, India

General Chairs

K.V.S. Hari (IISc, India)

V John Mathews (Oregon State Univ., USA)

Technical Program Chairs

Bhaskar D Rao (UCSD, USA)

Isabel Trancoso (Univ. of Lisbon, Portugal)

Gaurav Sharma, (Univ. of Rochester, USA)

Neelesh B. Mehta (IISc, India)

Workshop Chairs

Visa Koivunen (Aalto University, Finland)

Piya Pal (UC San Diego, USA)

S Umesh (IIT Madras, India)

Call for Workshop Proposals

Submission deadline – July 8, 2024

Acceptance notification – July 25, 2024

Paper submissions deadline – September 9, 2024

Paper Acceptance notification – December 18, 2024

Camera Ready Paper Deadline – January 13, 2025

The organizing committee of ICASSP 2025 invites proposals for Satellite Workshops, aiming to enrich the conference program, attract a wider audience, and enhance inclusivity for students and professionals. The ICASSP Satellite Workshops will be half- or full-day events and will take place before or after the main technical program at the conference venue. Their main emphasis will lie on clearly focused and emerging topics that are not specifically covered in the main conference and/or enable thematic synergies between the IEEE Signal Processing and other related societies, including (but not limited to) IEEE Communication Society, IEEE Information Theory Society, IEEE Aerospace and Electronic Systems Society and IEEE Vehicular Technology Society, among others. We also encourage proposals that focus on the use of novel technology for modern signal processing education. In keeping with the theme of “Celebrating Signal Processing”, we welcome workshop proposals which focus on seminal contributions from the past five decades with sustained impact. Workshop proposals are different from special sessions since each workshop serves as an independent mini-conference with considerable flexibility in the program format and execution. The workshops may include a mix of regular papers, invited presentations, keynotes, and panels, encouraging the participation of attendees in active discussions. Submitted workshop papers should abide by the ICASSP-2025 paper style, format, and length, while their peer-reviewing process should follow the main conference reviewing guidelines if the workshop organizers desire that the workshop papers be published at the IEEE Xplore Digital Library (with a separate conference record number). There must be an author of each accepted workshop paper presenting it in-person.

Proposal Submission:

Satellite Workshop proposals should be submitted through a special track to the ICASSP-2025 paper management system (Microsoft CMT) by the submission deadline (see Important Dates above), with the workshop organizer(s) appearing as the author(s) of the submission and the proposal being a free-form pdf file. The proposal should be no longer than three pages. Please read carefully the guidelines outlined next before submitting your proposal via this [submission link](#).

The free-form proposal pdf should include the following information in the listed sequence with corresponding numbered bullets for the proposed workshop:

1. **Title:** Full title and – if available – its acronym.
2. **Organizers' Affiliation:** Organizer name(s), affiliation(s), address(es), and email(s).
3. **Duration/Type:** Half or full day event.
4. **Expected number of attendees**
5. **Publication of the workshop papers at the IEEE Xplore Digital Library:** Yes/No
6. **Short Abstract:** Short abstract with the main idea (up to 200 words)
7. **Keywords:** Keywords listing the main topics covered.
8. **Extended abstract:** Discussing the motivation, impact, and main directions covered (up to 1000 words, including a few references if necessary). Explicit statements should be made as to why the subject(s) covered warrant a dedicated workshop outside the main conference, how this would complement the main conference and its relevance to it, how it could generate a new momentum in the field, and aspects of novelty (emerging fields), interdisciplinarity, and synergies with other societies. In addition, details should be provided if any competitions / challenges are planned.
9. **Planned composition:** What mix of regular papers, invited presentations, keynotes, and panels (having all is not required) is envisaged with any tentative information on specific contributors, if known.
10. **Diversity Inclusion and Ethical Issues:** Measures to ensure diversity and addressing any ethical issues (e.g. in case of shared data).
11. **Organizer Bios:** Short bios of the organizers, including expertise on the proposed topic (e.g. relevant publications or projects), experience with organizing similar efforts in the past and a personal website link, if available (up to 500 words).

The proposals will be judged based on their thematic relevance to ICASSP 2025, their focus and novelty, the potential interest and excitement they may generate, the credentials of their organizer(s), and the proposal completeness in terms of the provided information.

Workshop Logistics:

Organizers of ICASSP-2025 Satellite Workshops will be responsible for the workshop's scientific planning and promotion, including the setup of their external web-site (this will be linked from the main ICASSP-2025 site but not hosted there), running of the paper reviewing process, undertaking all communication with the submitted paper authors, creating and announcing the event schedule, abiding by the Important Dates listed below, and seamlessly communicating with the Workshop Chairs. Note that, specifically for workshops that will appear at IEEE Xplore, their paper submission and reviewing process will be conducted through the ICASSP-2025 paper management system (Microsoft CMT).

The ICASSP-2025 organizers will handle workshop registration, allocation of facilities, and distribution of the workshop papers in electronic format. Note that workshop attendance will be free-of-charge for the main conference registrants, while a reduced registration fee will be charged to workshop-only attendees.

Submission Instructions

Proposals should be submitted through the submission link. Inquiries should be sent via e-mail to the Workshop Chairs at workshops@2025.ieeeicassp.org

*All Proposals should
be submitted
through this link*
